

# AMG Kernel Deck Overview

A text version of the AMG Kernel presentation deck, published as a crawlable page so the deck's structure is discoverable outside the interactive application. Every section below maps to a slide in the live deck at [amgkernel.app/deck](https://amgkernel.app/deck).

---

## What AMG Kernel covers

AMG Kernel is an institutional fund flow and 13F holdings workspace built on EDGAR filings. It pairs weekly and quarterly flow data with quarterly institutional portfolio holdings, then presents both as interactive, reconciled overlays.

## Deck sections

1. **Ask: AMG Kernel** — the question the system is built to answer.
2. **Ground Truth: AMG Kernel** — the EDGAR filing basis for every figure shown.
3. **Train LLM: Interactive Demo** — using the reconciled data as model grounding.
4. **Fund Flows: Interactive Demo** — weekly, monthly and quarterly comparative flows.
5. **Holdings: Interactive Demo** — quarterly institutional portfolio holdings.
6. **Pricing** — subscription tiers and delivery.
7. **Pitch: AMG Kernel** — summary positioning slide.
8. **Cross-Holdings** — overlapping positions across filers and issuers.
9. **ETF Action** — ETF versus non-ETF activity.
10. **EDGAR Changes** — new, amended and superseded filings over time.
11. **N-PORT ↔ 13F Overlay** — fund-level and institutional views compared side by side.
12. **Issuer Rollup** — positions aggregated to the issuer level.
13. **American Model Generator Copyright AMPLIFIED.**

14. **AMG Kernel Valuevector1 Dashboard Template.**

15. **AMG Kernel Valuevector2 Dashboard Template.**
